CERTIFICATE

This is to certify that the project work entitled “**Higher Education: HRMIS with module IPR: Immovable Property Return**” submitted to the **School of Studies in Computer Science and I.T., Pt. RSU, Raipur** by **Divya Shoor** Roll No. “**2310174011**” is in partial fulfillment for the requirements relating to nature and standard of the award of **Master of Computer Application** degree during the year 2025 from **Pt. Ravishankar Shukla University, Raipur (CG)**.

This project work has been carried out under my guidance.

Dr. V.K. Patle

(Professor)

SCHOOL OF STUDIES IN COMPUTER SCIENCE & IT
Pt. Ravishankar Shukla University, Raipur [CG]

CERTIFICATE OF EVALUATION

This is to certify that the project work entitled “**Higher Education: HRMIS with module IPR: Immovable Property Return**” is carried out by **Divya Shoor**, student of MCA-IV semester at **School of Studies in Computer Science and I.T., Pt. RSU, Raipur** after proper evaluation and examination, is hereby approved as a credible work in the discipline of Computer Applications and is done in a satisfactory manner for its acceptance as a requisite for the award of degree of Master of Computer Application during the year 2025 from **Pt. Ravishankar Shukla University, Raipur (CG)**.

[Internal Examiner]

[External Examiner]

DECLARATION

This is to certify that the project report entitled “**Higher Education: HRMIS with module IPR: Immovable Property Return**” which is submitted by me in the partial fulfillment for the award of the degree of Master of Computer Application at **School of Studies in Computer Science and I.T., Pt. RSU, Raipur**, comprises the original work carried out by me.

I further declare that the work reported in this project has not been submitted and will not be submitted, either in part or in full for the award of any other degree or diploma in this Institute or any other Institute or University.

ACKNOWLEDGEMENT

The success and outcome of this project has been made possible by the guidance and support of many people. I would like to thank all peoples who gave me a golden opportunity to work on this project.

I would like to express sincere thanks to **Mr. Satyesh Kumar Sharma**(Scientist “E”, NIC Raipur CG) and **Mrs. Jyoti Sharma** (Scientist “C”, NIC Raipur CG) for their guidance and encouragement throughout the duration of my project development with a deep sense of gratitude. I express my humble thanks to all the members of **National Informatics Centre, Raipur (CG)** who helped and guide me in making this project.

I extend my sincere thanks and gratitude to our Head of the Department **Dr. Sanjay Kumar** (Professor & Head, Pt. RSU Raipur), for their valuable guidance and suggestions helped me in various phases of the completion of this project. I sincerely convey my gratitude to **Dr. V.K. Patle** (Associate Professor, Pt. RSU Raipur) for his support in accomplishment of the project. Without his active co-operation and guidance, it would have become very difficult to complete task in time.

While submission of the project, I also like to thank all my teachers **Mr. Deepak Deshmukh, Mr. Rahul Singh, Mr. Mukesh Kashyap, Ms. Ranu Sao, Mrs. Harsha Pandey** for their continuous help and guidance throughout the course of **MCA**. It would be a tough work without their help, support and guidance of these members of **S.O.S in Computer Science and IT department, Pt. Ravishankar Shukla University Raipur (CG)**.

At the end, I also express my thanks to my friends, colleagues and all those persons who have helped me directly or indirectly in the successfully completion of the project work.

Divya Shoor
MCA-IV Semester
Roll no. 2310174011

Abstract

The Immovable Property Return (IPR) module is a web-based sub-module developed as part of the larger Human Resource Management Information System (HRMIS). Its primary objective is to provide a digital platform for employees to submit their annual immovable property declarations in a secure, structured, and timely manner, as mandated by government policies and organizational norms.

This module simplifies the traditionally manual and paper-based IPR submission process by enabling employees to fill out property details online during a predefined date range set by administrators. The system supports year-wise tracking of submissions and enforces strict access control to ensure that entries can only be made within the authorized time period.

Built using the MERN stack (MongoDB, Express.js, React.js, Node.js), the application incorporates client-side and server-side validations, secure authentication, and session handling via the existing HRMIS infrastructure. The module is designed to be scalable and supports future enhancements like form approval, export options, and automated notifications.

By streamlining the IPR filing workflow, this module enhances transparency, ensures regulatory compliance, and reduces administrative burden for both employees and HR departments. The project demonstrates the practical integration of modern web technologies in building secure, user-friendly, and policy-aligned digital solutions.
